COMPANY ANNOUNCEMENT
New Winnipeg Branch, Hi-Tech Hydraulics

We are excited to announce Hi-Tech Hydraulics as the newest Norcan Fluid Power branch. Over the last several months Norcan sought opportunities to expand into Winnipeg. Hi-Tech Hydraulics presented an excellent fit for Norcan in the Manitoba market.

Hi-Tech has a solid base of business in the Winnipeg area with extensive experience as a hydraulic machine shop with about 10 employees. Their hydraulic and machining know-how match up well with the core competencies required to represent Norcan in the Manitoba market.

In the coming weeks we will be welcoming our Winnipeg branch into our operations and we are looking forward to a long and prosperous relationship with our newest branch.

Please join me in welcoming Hi-Tech to Norcan.

Sincerely,

A handwritten signature in black ink, appearing to read "Bill Dix".
